Cosulich Interiors in collaboration with Matlight Studio: this contemporary organic modern lighting, entirely handcrafted in Italy, is part of a collection called essential stick, the core and canopy are here decorated with Nero Marquina marble highlighted by 2 narrow satin brass bands, both enclosing the light source that amplifies the illumination by reflections. The marble, a purely decorative element, embellishes the structure of the product with a note of precious color and solidity. The ingenious and functional geometric design combines the minimalism of thin profiles with the versatility of customizations in stone and finish and the modernity of powerful LED technology, offering a warm and diffused light. Can be accompanied by vertical or horizontal sconces of similar design. Customizations available for finishes and stones.
